

## EZ Fan Installation Guide

### **Tools Required:**

- Phillips Screw Driver

### **Parts:**

- Fan w/ attached aluminum bracket
- 2 inch metal screw

### **Step 1:**

On the bench endcap remove the preinstalled screw from the middle hole using a Phillips screw driver.

### **Step 2:**

Place the provided 2 inch screw through the aluminum metal fan bracket into the middle hole and tighten using a Phillips screw driver as shown below.

The fan should be facing upright in the middle of the bench as illustrated above.
